Hi ☺

My name is Anita. I want to tell you that I was in extreme pain daily. I saw western doctors who said they could do "nothing" for me and that I should learn to live with the pain. I was bleeding with each bowelment and it felt like I had several razor blades inserted into my rectum. Life for me was only "pain". I forgot what life was like without it. I got to the place where I told my husband I wanted badly to die. This was no life. My husband found NATCAL Clinic on the internet. I was seen the very next day. All pain stopped with the very first treatment! I was shocked... I had my life back. I followed the doctors instructions. It has been over a month now and I am laughing and happy! My family is also pleased to see me enjoying life again. All the Best To You
Anita ☺
